

# CRETE OFF 101 HD

## CONCENTRATED CONCRETE REMOVER AND DISSOLVER

**Crete Off 101 HD** Concentrate is a salt of acid specifically designed to remove heavy accumulations of concrete from hard surfaces. It removes heavy concrete build-up found in hard-to-reach areas such as frames under the ring, shoots, bumpers and drums on ready mix concrete trucks and equipment. Its unique formula with super penetrating surfactants will break the bond holding the concrete to the surface without encouraging rust.

**Crete Off 101 HD** Concentrate is safe to use on paint, glass, plastic, hard and soft metals.

### TECHNICAL DATA

<b>Form</b>	Liquid
<b>Fragrance</b>	Mildly sweet
<b>Color</b>	Green
<b>Wetting Ability</b>	Excellent
<b>Foaming</b>	Excellent
<b>Cold Stability</b>	32°F
<b>Flashpoint</b>	None
<b>Solubility in Water</b>	Complete
<b>pH</b>	2.0 - 3.0
<b>Weight per Gallon</b>	9.87 lbs
<b>Specific Gravity</b>	1.18
<b>Storage Stability</b>	1 year
<b>Biodegradability</b>	Complete

### DIRECTIONS

Apply **Crete Off 101 HD** Concentrate to a dry surface with a foamer or sprayer.

#### *Dilution Ratio:*

- For heavy build-up, apply full strength and soak overnight. Reapply 12 to 15 hours later. Use a high-pressure washer with rotating nozzle to remove treated concrete and/or cement.
- Dilute 1-part chemical to 1- to 2-parts water to remove light to medium concrete accumulation. Apply to dry surface and let soak for 30 minutes.

Wash down with a high-pressure washer using a rotating nozzle or a water hose.
