

# TUNNEL WASH

## FOUR-PART CLEANING SYSTEM

### #1 ALUMINUM CLEANER & BRIGHTENER

#### **Tunnel Wash #1 Aluminum Cleaner and Brightener**

is the first step of the tunnel washing procedure. It is designed to clean and brighten aluminum, stainless steel, painted surfaces and remove stains. This is an industrial strength chemical and proper personal protection equipment should be worn.

#### **DIRECTIONS**

Apply **Tunnel Wash #1** manually with a sprayer. Standard dilution is 1-part chemical to 50-parts water but may be diluted to 25-50-100-parts water. Spray product on surface and soak for 2 to 5 minutes. Brush or pressure wash treated area, or continue with tunnel washing.

#### **CAUTION:**

Chemical is harmful to glass. Avoid getting this product on glass. Do NOT allow this product to dry on treated surface.

#### **ADDITIONAL INFORMATION**

Store in a cool, dry place. Do NOT allow product to freeze. If freezing occurs, stir gently to reconstitute. Dispose of container in accordance with all federal, state and local regulations. Read label for general warnings, cautions and usage information. All detergents used in the manufacturing of this product are biodegradable.
