MAGIC BRITE

MULTIPLE HARD SURFACE CLEANER AND FILM RELEASE
WITH RUST INHIBITING ACTION

Magic Brite is specifically designed to remove rust stains, dirt stains, tarnish, film, light cement/concrete dust, calcium residue, mold/mildew stains and much more. **Magic Brite** is safe to use on multiple hard surfaces such as painted metal surfaces, stainless steel, mild steel, aluminum, glass, fiberglass, plastic, brick and concrete. **Magic Brite's** unique chemistry allows it to penetrate the substance to be cleaned, breaking the bond holding the substance to the surface and allowing the substance to be washed away.

DIRECTIONS

Magic Brite may be applied to the surface to be cleaned using a closed loop air-over-foam system or sprayer. **Magic Brite** may also be applied using a pump-up sprayer, trigger sprayer or brush. The preferred method to apply **Magic Brite** is a foaming system. The foam will cling to vertical surfaces, allowing more penetrating

time for the product to work. With any method of applying **Magic Brite**, allow 2 - 4 minutes of penetrating time. Use a high-pressure washer to flush and wash the surface. In areas where a high-pressure washer is not practical to use, agitate surface with a brush or towel before rinsing the surface with water.

Normally, **Magic Brite** is foamed on the surface to be cleaned undiluted; however, **Magic Brite** is a concentrate and can be diluted for many applications. Dilute **Magic Brite** as needed.

EPA/Safer Choice recognition does not constitute endorsement of this product. The Safer Choice label signifies that the product's formula, as Industrial Chemical Solutions has represented it to the EPA, contains ingredients with more positive human health and environmental characteristics than conventional products of the same type. EPA/Safer Choice relies solely on Industrial Chemical Solutions, its integrity and good faith, for information on the product's composition, ingredients and attributes. EPA/Safer Choice has not independently identified, that is, via chemical analysis, the ingredients in the product formula, nor evaluated any of Industrial Chemical Solutions non-ingredient claims. EPA/Safer Choice provides its evaluation only as to the product's human health and environmental characteristics, as specified in the Safer Choice Standard and based on currently available information and scientific understanding.

TECHNICAL DATA

Form	Liquid
Fragrance	None
Color	Green
Wetting Ability	Excellent
Foaming	Excellent
Cold Stability	32°F
Flashpoint	None
Solubility in Water	Complete
pH	≥ 2.00
Weight per Gallon	9.4 lbs/gal
Specific Gravity	1.13
Storage Stability	1 year
Biodegradability	Readily biodegradable

ADDITIONAL INFORMATION

Keep container closed when not in use. Store in a cool, dry place. Do NOT allow product to freeze. If freezing occurs, stir gently to reconstitute. Dispose of container in accordance with all federal, state and local regulations. Read label for general warnings, cautions and usage information.
