

ALUMINUM BRIGHTENER & CLEANER

Aluminum Brightener & Cleaner is a premium formulation designed to clean and brighten most aluminum surfaces. It removes oxidation from aluminum surfaces immediately to bring out the brightness of aluminum, aluminum alloy metals and stainless steel surfaces.

Aluminum Brightener cuts road film, diesel smoke, fuel oil stains and rust runs, and brightens aluminum wheels, trailers, fuel tanks and paint. Aluminum Brightener will remove yellow film and rust runs from painted surfaces, plastic and fiber glass. Do NOT use on glass in concentrated form.

AREAS OF USE:

- Automotive Industry
- Aluminum trailers, tankers
- Fuel tanks
- Aluminum Wheel
- Painted Wheels
- Chip Trailers

BENEFITS AND FEATURES:

- Concentrated
- Dilutable with water
- Biodegradable
- Versatile in application method

DIRECTIONS

Versatile in its application method. May be sprayed on with a pump-up sprayer, wiped, brushed or metered through a downstream injector.

TECHNICAL DATA

Form	Liquid
Odor	Mild acidic
Color	Blue
Wetting Ability	Excellent
Foaming	Good
Cold Stability	32°F
Flashpoint	None
Solubility in Water	100%
pH	1.0 - 2.0
Weight per Gallon	8.65 lbs
Specific Gravity	1.04
Storage Stability	< 1 year
Biodegradability	Complete

See SDS for complete data.
