

MAX

ALUMINUM CLEANER AND BRIGHTENER

MAX is a powerful concentrate specifically designed to clean and brighten aluminum wheels, bumpers and tool boxes without streaking, spotting or damaging the surface. When used as directed, MAX removes road film, grease, grime and rust stains.

MAX reaches areas that cannot be reached with a brush and loosens the residue so you may rinse away easily with water. Designed for work and home, MAX is a fast-acting, concentrated product that can be diluted to suit your needs.

TECHNICAL DATA

Physical State	Liquid
Wetting Ability	Excellent
Appearance	Clear
Relative Density	8.65 lbs/gal
Specific Gravity	1.04
Odor	Mild acidic
Solubility	Complete
Flashpoint	None
Cold Stability	32°F
pH	2.0 - 3.0

See SDS for complete data.

DIRECTIONS

For severe cleaning, dilute this product 1:1 to 1:4. For normal aluminum cleaning and brightening, dilute this product 1:4 to 1:9. You may dilute as much as 1:50 for light cleaning and stain removal.

NOTE: If product is used too strong, aluminum will dry out to a dull gray. To ensure bright shine, utilize ratio of 1:4 to 1:9.
